The game has a first-person view like the film, allowing players to view their own changes and those made by others as they play. Metacritic, a website that aggregates reviews of games from critics and review aggregator websites, gave the Xbox 360 version 79 out of 100, saying that it met "the majority of critics expectations." GameSpot, which also gave the game 79 out of 100, stated that it was "a visually impressive game" that "allows the player to determine exactly how they want the story to unfold." IGN, which gave the game a score of 7.6 out of 10, said that the game was "fairly fun" but that the level design left something to be desired, and that the camera had a "rather annoying habit of focusing on things you didn't want." The PlayStation 3 version was given a score of 78 out of 100 by review website Metacritic. GameSpot, which gave the game 7.6 out of 10, said that the game was "very good" and that it was "better than you might think at first." Eurogamer, which also gave the game a score of 7.6 out of 10, said that while it was "good" and "fun," it was "a little too linear" for its own good, and that there was some collision detection issues. Game Informer gave the game a score of 7 out of 10, saying that it was "a visually impressive game." GameSpot, which gave the game a score of 7.1 out of 10, said that the game "has a lot of depth" and that the game was a "fairly fun" and "thought-provoking experience." Official Xbox Magazine gave the game a score of 73 out of 100, saying that it was "a bit of a bore" and that while the game was "rather unique," it was not good. It is in this context that the next generation came to be known as the The game has a first-person view like the film, allowing players to view their own changes and those made by others as they play.
